Description: Not sure if this is the same problem...but, maybe someone has an answer. I had this issue on when I got Fifa 13 Manager Failed To Initialize error. It said that my game would not open when I got the error, but once I attempted to load again, it was fine. After receiving this error I am assuming I needed to reinstall the game. When it said it couldn't reinstall the game, I reinstalled (from the download) and then it worked. If anyone sees this error, please post what you did to fix it. I've never had this issue before, but the version of the game I have is not the most recent. It's the 2013 version, but it's the 2013 that came out last year. I don't know if that's a factor. Anyway, it says that Fifa Manager is not found in the system. This is an error message and its description with a reason code of DLL_INIT_FAILED.
